

## Subsidised Christmas Tree Application Form 2017

Contact Name: ..... Position: .....

Business Name: .....

Address: .....

.....

..... Post Code: .....

Phone Number Work: ..... Mobile: .....

Email address: .....

Contact name for installation: .....

### Terms & Conditions:

#### Payment

- Full payment must be received with application.
- You can pay online to Sort Code: 30-99-56 Account: 33424360 (using your business name as payment reference) or return the form with a cheque.
- A full VAT invoice will be issued once the application has been processed.
- No Bracket or Tree will be installed without the full payment of cleared funds.

#### Use of an Existing Bracket

- The business named above accepts full responsibility for the testing of existing brackets to ascertain their suitability, condition and to ensure they are safe and fit for purpose.
- The business named above must provide a written report/statement to this effect, for each bracket, from a suitably qualified contractor, before the tree is installed.

#### Installation of Bracket

- The business named above accepts that once the bracket has been installed and the job completion form signed, the liability for, and future care & maintenance of the bracket, is entirely the responsibility of the named business.
- Neither Weymouth BID Ltd nor the bracket installation contractor can be held responsible for the subsequent failure of or any claims associated with the installed bracket.

Installation of Christmas Tree

- Each tree is supplied, trimmed and dressed with a set of Christmas lights.
- The price includes installation, removal and disposal.
- It is the responsibility of each business to provide a suitably located, internal or weatherproof external electrical supply for their own tree lights. The light sets are 12v dc cable & bulbs and require a standard 13amp socket supply.
- The tree installation contractor will assist with the external placement of the cable to access the 13amp wall socket inside your business premises.
- It is the responsibility of each business to ensure the safe placement of cabling within their premises and to make the electrical connection.
- Weymouth BID Ltd nor the Christmas Tree Installation Contractor can be held responsible for the security or safety of the tree or its electrical connection once the installation is complete.

Permissions

- It is entirely the responsibility of the business named above to obtain the necessary permissions for the installation of the wall bracket, Christmas tree and electrical connection.
- It is entirely the responsibility of the business named above to ensure that they have the necessary Public Liabilities and Buildings insurance in place for installation of the wall bracket, Christmas tree and electrical connection.

I have read and agree to the above terms and conditions and confirm that we require,
